## Six Degrees Albany

The Stuff Dreams are made of.

### Tap Beer / Cider

ask for a try before you buy

2 sizes: small, big

#### 150 Lashes (4.2%) ..... 9.5, 11.5

a refreshing australian-style cloudy pale ale with restrained bitterness and a clean, smooth finish. it's an easier-drinking beer than others in the james squire range and a familiar style that australian beer drinkers will recognise. the use of malted wheat also adds to its refreshing character delivering a beer with a fruity nose and hints of passionfruit, grapefruit and citrus.

#### White Rabbit Dark Ale (5.2%) ..... 9.5, 12.5

mouth filling malt characters and a beautiful fruit driven complexity derived from the open fermenters, mix this with a reassuring bitterness from some aromatic hops and we reckon the result is a delightfully scrumptious ale!

#### Feral Hop Hog (5.8%) ..... 10.5, 13.5

get a good whiff of this Feral Brewing Co beast that explodes with citrusy flavours and hop aromas, rounded out with a solid malt backbone. A farmload of American hops makes Hop Hog a uniquely Feral brew...and just a little fruity.

#### Little Creatures Pale Ale (5.2%) ..... 9.5, 12.5

drink a few pints of this beer and you'll soon become one of us...a certified "hophead" craving those crisp citrus flavours of grapefruit and passionfruit and maybe a bit of honey, all backed up with a good balance of bitterness.

#### Little Creatures Rogers (3.8%) ..... 9, 11

Rogers' beer has a complex mix of malts combined with the unique little creatures hop character. it's a consistently crafted fabulous, easy drinking beer, with just the right amount of flavour for west australian hot days and barmy nights.

#### Little Creatures Furphy (4.4%) .... 9.5, 11.5

designed to be "quite different from the 'full-flavoured' space that Creatures usually plays in", this takes its inspiration from the German Kolsch style of ale.

#### Heineken (5.0%) ..... 9.5, 11.5

back in 1873 a young entrepreneur named Gerard Heineken discovered a passion for brewing. At the heart of Heineken's success lie pure, natural ingredients: malted barley, water, hops and a small but significant extra called A-Yeast. 145 years on and over 25 million beers are poured to customers in over 192 countries. Enjoy.

#### Wilson's Figurehead Blonde Ale (4.9%) .... 9, 11

Wilson Brewing Company's Blonde has hints of light citrus and apple on the nose, with the Aussie Ella hops delivering a gentle bitterness too. Malt wise, expect some light, cracker like flavours in a beer that sits firmly in the easy-drinking territory.

#### Swan draught (4.5%) ..... 9, 11

Swan draught uses barley sourced exclusively from wa's world renowned growing fields to produce a golden coloured lager with that famous smooth malty flavour that has made it wa's no. 1 tap beer. tasmanian grown hops provide the bitterness to make this a well balanced, smooth and easy drinking draught beer.

#### Hahn super dry (4.6%) ..... 9, 11

brewed using the finest ingredients with no preservatives or additives. an enhanced brewing process breaks down more of the natural sugars to deliver a super dry taste with only a third of the carbs of standard full strength beer.

#### Hahn super dry 3.5 (3.5%) ..... 8.5, 10.5

hahn super dry is a premium low carb, mid strength lager, brewed using the finest ingredients with no artificial additives or preservatives. an enhanced brewing process breaks down more of the natural sugars to deliver a genuine super dry taste, with only a third of the carbs of a regular beer.

#### Pressmans Cider (4.2%) ..... 9.5, 12

crafted in australia using fresh apple juice, pressman's cider is so clean and refreshing it's akin to taking a bite out of a crisp orchard-fresh apple. a light, thirst quenching cider, with crisp apple notes dominating, pressman's is the ultimate in refreshment when served in a tall glass over ice. bloody hard to make, refreshingly easy to drink!
